Security Policy - Online Payment Transactions

AAH uses the NAB Transact Hosted Payments Page which is a security enhanced online credit card payment system that integrates into a web site via an HTML order form.

The order form collects information about an order and upon submission by a customer; calls the NAB Transact Payment Gateway which in turn enables secure processing of the customer's credit card for the invoice total (see Figure 1).

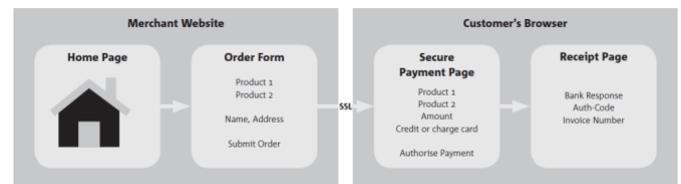

Figure 1

All online credit card transactions performed on this site using the NAB system are secured payments.

- Payments are fully automated with an immediate response.
- Your complete credit card number cannot be viewed by AAH or any outside party.
- All transactions are performed under SSL Certificate.
- In addition, AAH serves our order page across an encrypted connection.
